

## Bilanzierungsbrennwerte H-Gas nach KoV

Mit dem Bilanzierungsbrennwert (in kWh/mn<sup>3</sup>) wird eine vorläufige Zuordnung von Mengen durchgeführt, da der endgültige Abrechnungsbrennwert erst mit ca. 1 Monat Zeitversatz bekannt ist. Dieser Bilanzierungsbrennwert (in kWh/mn<sup>3</sup>) hat für die Endkundenabrechnung keine Relevanz. Er wird von der Rheinischen NETZGesellschaft mbH halbjährlich veröffentlicht.
